Technical Skills

Languages: Java, Python, Javascript, Typescript, C++, SQL, HTML, CSS

Developer Tools: Docker, Postman, Git, Supabase, Google Cloud, Jupyter Notebook

Libraies / Frameworks: React, Djagno, MongoDB, PostgreSQL, NodeJS, ExpressJS, Redis

Experince

Programming Fundamentals Instructor (Volunteer)

June 2025 - August 2025

- Taught 67 pupils in grades 9 and 10 the fundamentals of programming. explained basic coding concepts, logic, and algorithms.

Projects

MarketMeda AI – AI-Powered Marketing Assistant for Ethiopian Entrepreneurs | [Project](#)

- Built an AI-driven digital marketing platform that helps local Ethiopian businesses generate high-quality marketing content, analyze customer behavior, and scale their online presence with minimal technical effort.
- Automated social media content creation by generating multilingual captions (Amharic, Afaan Oromo, Tigrinya, English).
- Designed data-driven analytics pipelines using Google BigQuery to store and process product performance, customer engagement, and campaign metrics at scale.
- Developed interactive business intelligence dashboards with Google Looker Studio, enabling entrepreneurs to visualize product trends, marketing funnels, and demand patterns for informed decision-making.
- Tech: React, Vite, Tailwind CSS, Node.js, Google BigQuery, Looker Studio, LLMs, REST APIs, Data Analytics

Warka-E-Commerce Platform | Full-Stack Project | [Project](#)

- Built a secure, scalable e-commerce application with role-based authentication, Google OAuth integration, and a relational PostgreSQL database.
- Implemented RESTful APIs, dynamic product management, and secure order processing using Prisma ORM and JWT.
- Tech: React, Node.js, Express, PostgreSQL, Prisma, JWT, Tailwind CSS

Hanos – Full-Stack Movie Rental Management System | [Project](#)

- Movie rental platform enabling end-to-end management of customers, movies, genres, rentals, and returns through a RESTful architecture.
- Developed a rental and return workflow that associates customers with rented movies and dynamically calculates rental fees upon return.
- Tech: React, Tailwind, Node.js, Express, MongoDB

Education

Addis Ababa University

Expected Graduation: June 2027

Bachelor of Science in Information Systems | GPA: 3.70 / 4.0
